

The first national conference and exhibition of Ukraine in the USA

The exhibition will host over 50 leading Ukrainian companies from the aerospace, mining, metallurgy, machine building, chemicals, food processing, light industries and consumer goods as well as the science and information technology sectors. It will feature everything from the world's most efficient satellite launcher to the world's smallest engine.

A highlight of the event will be a conference "UKRAINE'S CHANGING PLACE IN THE GLOBAL ECONOMY". The conference will discuss current issues in Ukraine's economic development and will ask searching probing questions including

- Can Ukraine link East and West?
- Do foreign investors underestimate Ukraine?
- What are the opportunities for US companies?
- Perception vs reality of the Ukrainian economy?

The conference plenary session will spotlight the strengths and weaknesses of modern Ukrainian economy and the prospects for bilateral trade and successful foreign investment. Top economists from Ukraine and world renowned institutions will present their visions and forecast of the country's economic development. The interests of particular industries will be discussed at break out sessions devoted to Ukraine's vast agricultural potential, harnessing unique information technologies, the strengthening financial sector and of most interest Ukraine's massive resources in scientific and technical innovation that are as yet untapped.

The goal of the event is to introduce the U.S. business community to the present-day economic potential of Ukraine in order to establish mutually beneficial platforms for trade, commerce and investment. As part of this conference, participants will be presented with a catalogue of the best investment projects in Ukraine today, as well as an investment climate overview from leading international consulting companies and those US companies that have already invested successfully.

The event will also feature announcement about opening of the 19th representative office of the Ukrainian National Committee under the International Chamber of Commerce

Who should attend?

Business executives interested in well above average profit margins
Scientific and research institutes, production and experimental development companies, machinery and equipment engineers and technology developers
Financial and investment companies, banks and financial institutions
Chambers of Commerce, leading consulting and information companies
